DETAILED ACTION

This Office Action is responsive to the applicants' election/Restriction - amendment filed on March 30, 2001.

Claim 1 has been amended. Claim 17 has been added. Claims 5-7, 9 and 13-16 have been withdrawn. Accordingly, claims 1-4, 8, 10-12 and 17 are pending in this application.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 4, 8, 10, 12 and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Morozumi et al. (Morozumi) (Publication Number JP 02-157487).

Regarding claims 1, 4, 8, 10, 12 and 17, as shown in Fig. 1, Morozumi discloses a device for guiding a movable scroll of a scroll compressor, comprising: a track (2) that guides the movable scroll (41) and supports radial inertial forces between a fixed scroll and the movable scroll; the track being disposed on a body of the compressor (see Fig.1); the track (2) being continuous; the track (2) being circular; the track providing orbital guidance of the movable scroll (2); the track (2) supporting the radial inertial forces between the fixed scroll and the movable scroll (1) at all angular positions.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 3748

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2 and 3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Morozumi.

Morozumi discloses the invention as recited above; however, Morozumi fails to disclose a shape of the track. It is examiner's position that one having ordinary skill in the rotary compressor art, would have found it obvious to utilize the shape of the track, since they are merely design parameters, depending on temperature, pressure, or stress acted/applied on the movable/fixed scroll or depending on being used for a particular purpose or solving a stated problem. Moreover, there is nothing in the record which establishes that the claimed shape of the track under such conditions, presents a novel or unexpected result (See *In re Kuhle*, 526 F.2d 553, 188 USPQ 7 (CCPA 1975)).

Allowable Subject Matter

Claim 11 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to claims 1-4, 8, 10-12 and 17 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
